Date Prepared: Feb 3, 2006

Primary Disability: Severe Orthopedic
 Injuries Left Hip and
 Both Knees

Complication	Cost of Complication	Comment
Total Hip Arthroplasty	\$36,812 - \$43,419	Replacement of hip joint due to severity of injury and development of osteoarthritis due to his injuries and alteration in his gait, eventual need for right hip replacement remains a possibility. Total hip replacements require revision surgery approximately every 15 to 20 years.
Total Knee Arthroplasty	\$33,274 - \$47,860	Replacement of knee joint due to severity of injury and development of osteoarthritis. He remains at risk in the future for bilateral total knee replacements.
Total Knee Arthroplasty - Revision	\$39,139 - \$48,579	Knee replacements will last for approximately 10 to 15 years, and then revisions will be required.
